You'll Get More Choices

WellChoice offers a Formulary for access to a wide range of high quality, safe and cost-effective prescription drugs. The formulary is:

- Comprised of many proven brand-name and generic drugs approved by the Food and Drug Administration (FDA).
- Updated quarterly for quality assurance by a panel of clinical experts, including independent physicians and pharmacists.

Members can always purchase prescription drugs not listed on our formulary at participating pharmacies. However, they may be at a higher copay.

You'll Enjoy One-Card Convenience

There's no separate card to carry, and no forms to fill out. Just present your WellChoice ID card indicating that Pharmacy Management is included in your benefit plan, and we'll take care of the rest.
